Blackberry Trans- Disciplinary Studio | SP 2009

Pasadena CA

Re-envision the Blackberry
mobile device to be adaptable
to the user's needs.

RECOGNITION

ART CENTER STUDENT GALLERY

Corner | SU 2009

"Dining Table for Two"

Table design with one corner
removed promoting two people
to sit around the one remaining
corner to increase intimacy.

Be. U | SP 2009

"A Mobile Device"

Be. U allows a user to create
a personalized information
architecture using four
digital interface frame.

iMix | FA 2007

"Multi-user Musical Device"

An iPod music mixer that allows
people to share and mix their
favorite music genres together.

Just for Two | SP 2007

"A Watch for a Couple"

A watch that allows a couple
to create their own design by
ripping through perforated
holes in the middle to split
the watches.

Linko | SU 2006

"An Educational Water Toy"

Linko provides fun in learning
numbers by linking five fish
from smallest to biggest.

RECENT PROJECTS

Hollow | SU 2010

"A Coffee Table"

A low coffee table with surface
being scooped out, Hollow
offers a surprise path
underneath the table top.

Waltz | SP 2010

"A Rocking Stool"

Waltz invokes loving youthful
memories from childhood,
the moments shared between
a child and their parent.

Pouch | SU 2009

"Sustainable Lighting Design"

A personalized lighting design
purely made from recycled
dried corn husk leaves.
